| Nuclear Medicine     | --   | --       | <p>During the reporting year, significant progress was made towards the recommissioning of the Nuclear Medicine Department, which had remained non-functional for an extended period. Repair of the PET-CT reporting console room and Cyclotron facility rooms were successfully completed. Technical assessment, maintenance, and restoration activities for departmental equipment were undertaken. Calibration and quality assurance procedures of the PET-CT system are currently in progress. The department is expected to resume clinical services upon successful completion of calibration, validation, and statutory requirements.</p>                                                                                                                                   |

## 8. HR DETAILS : **NOT Required**

## 9. INFRASTRUCTURE & DEVELOPMENT WORKS

{Kindly provide brief details regarding infrastructure development/improvement made during the year}

- a) New wards/buildings developed : **No**  
b) Renovation works completed: **No**  
c) **New medical equipment installed:** **Yes**

- Brachytherapy
- Anaesthesia Work Station
- Compressed Air System
- Vacuum Pump System
- Automated ESR analyser
- Benchtop Centrifuge (24 Tubes)
- Biosafety cabinet class II Type B2
- Refrigerated Centrifuge
- Biological Indicator Incubator/Auto Reader
- ELISA washer and reader
- Flexible fibreless video Bronchoscope
- Dental Equipment including Dental Chair, Digital X-ray Machine

- d) ICU/HDU expansion: **No**

- e) **Digital services introduced:** **Yes**

Digital transformation initiatives have been strengthened through the successful implementation and functioning of NextGen e-Hospital modules, including PMJAY, HIMs, e-Office, and e-HRMS and NIC Lease line resulting in improved healthcare delivery, operational efficiency, and patient-centric services

- f) **Patient care improvement initiatives:** **Yes**

1. Reduced Waiting Time by Streamline registration, consultation, investigation, and admission processes. Implemented token systems and appointment scheduling where feasible.

2. Strengthened infection prevention and control practices. Promote hand hygiene compliance among healthcare workers. Implement medication safety protocols and incident reporting systems.

3. Established mechanisms for emergency procurement of medicines during non-office hours.

4. Improved Cleanliness and Hygiene. Regular monitoring of housekeeping services. Ensure cleanliness of wards, toilets, waiting areas, and public spaces. Proper biomedical waste segregation and disposal.

5. Patient Education and Awareness through Displayed IEC materials on health promotion, disease prevention, and available schemes. Created awareness regarding EWS facilities, Ayushman Bharat, and other patient welfare schemes.

6. Conducted regular training programs on patient care, communication skills, biomedical waste management, infection control practices and emergency response.

Encouraged continuous nursing education.

7. Periodic Patient Satisfaction Surveys by obtained feedback from patients and attendants. Analyze findings and implement corrective measures for continuous quality improvement

g) Any other infrastructure development: **No**

10. HEALTH PROGRAMMES & COMMUNITY ACTIVITIES

{Kindly mention important programmes/activities conducted during the year}

a) Health camps: **No**

b) Immunization activities:- **No**

c) TB/NCD programmes :- **No**

d) Awareness programmes :- **Yes**

**CAPS (Cancer Awareness Prevention Screening)**

The Cancer Awareness Prevention Screening (CAPS) Programme was implemented through a series of structured camps conducted across multiple locations in Delhi NCR. The first camp was organized at the Delhi Secretariat on 4th February 2026, coinciding with World Cancer Day, marking the official launch of the programme. A total of 08 (Eight) camps has been conducted till date on various locations of Delhi & NCR viz Delhi Secretariat, Delhi Haat, (Janakpuri), Dilshad Garden, Tis Hazari, Delhi Police Headquarters, Delhi University, National Union of Journalist, New Delhi&RCS Senior Secondary School, Johripur, Delhi.

e) Blood donation camps :- **Yes (In collaboration with GTB Hospital on dt 18-02-2026)**

f) School/community outreach activities:- **Yes**

g) Public health awareness campaigns:- **Yes**

h) Dental Camps/facilities : **No**

11. MAJOR ACHIEVEMENTS OF HOSPITAL

{Kindly mention major achievements/awards/new initiatives during 2025–26.}

a) Awards/recognition received :- **No**

b) New services started :- **Yes**

1. Online OPD Registration and digital platforms such as NextGeneHospital,e-Office etc, were implemented to enhance service delivery and administrative efficiency.

2. AB-PMJAY was successfully implemented, providing cashless healthcare services to eligible beneficiaries.

3. A PradhanMantriBhartiyaJanaushadhi Kendra (PMBJK) was established to provide affordable quality generic medicines to patients.

c) Important surgeries/procedures conducted :- **Yes**

d) Accreditation/quality initiatives:- **Yes**

e) Special achievements/best practices :- **No**

12. FUTURE PLAN / PROPOSED ACTIVITIES  
{Kindly mention proposed activities/plans for next year}

a) **Expansion of services :-**

- ✓ Strengthening of Academic, training, and research activities for DNB students and healthcare professionals to promote clinical excellence.
- ✓ Augmentation of human resources, advanced medical equipment, and supporting infrastructure to effectively manage increasing patient load and service demand.
- ✓ Installation and commissioning of 15MV Linear Accelerator is under process and likely to be started the facility in the year 2026.

b) **Procurement of equipment:-**

- Vital Signs Monitor with Anaesthesia Gas Monitoring
- Duodenoscope (ERCP Scope)
- Endoscopic Ultrasound (System) Scope
- Colonoscope (Slim)
- Gel Card Centrifuge Reader
- Fully Automated slide stainer for histopath and cytology
- Gynecological office Hysteroscopy for uterine malignancy diagnostic procedure
- Fully Automated Blood Culture System
- Automated Identification and Antimicrobial susceptibility Testing System for bacteria and Yeast
- Real Time Quantitative Chip/cartridge based Amplification/ PCR Analyzer
- Semi Rigid Video Thoracoscope
- Pulmonary Cryo-Unit
- Digital X-ray Scan/ Fluoroscopy
- Surgical Operation Loupe (Sizes - 2.5X & 5X)

c) **Recruitment of manpower:-**

- ⇒ This Institute is emphasizing on recruitment of SRs and JRs regularly.
- ⇒ Recruitment of Para-Medical and Ministerial Staff is under process. Moreover, recruitment of Faculty posts is under consideration

d) Infrastructure improvement:- **Yes**

e) New projects/services proposed:- **Yes**

13. CERTIFICATE

Certified that the information furnished above is true and correct as per official records of the hospital/institution.
